Note: If you don't see the three dots, then you will need to tap on the photo first.. 1 and Windows 10

Mobile phone (e g , Nokia and Microsoft Lumia) This tutorial will work for all Windows Phone 8.. Go to the picture you want to use as your new background Tap on the photo If you get the option to crop your picture, then swipe (move) the photo to the right position.. If your phone still uses Windows Phone 8, then you should upgrade your phone to Windows Phone 8.. And on Windows 10 Mobile you can also set an image as background and make the tiles transparent.. But: A home screen with only solid-colored tiles may look boring Fortunately, it is possible to use an image as the background for the tiles on a Windows Phone 8.. If you want to merge several MP3 file together, you can first drag all of them at once, and arrange its playing order.
